

Flying Horse Logistics Installation guide to Install app on IOS and android devices.

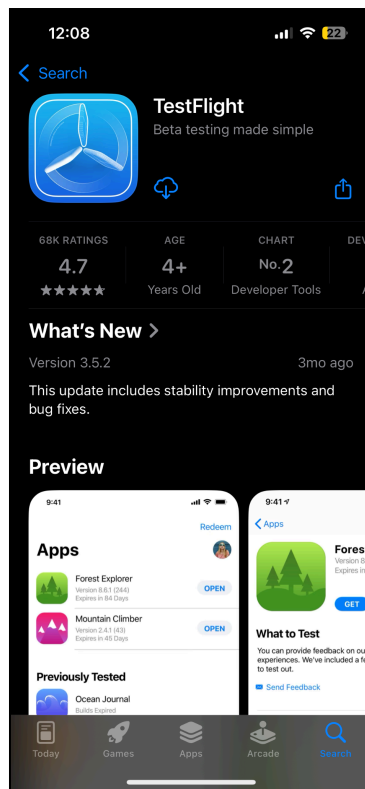

Table of Contents:

1. To install Flying Horse app on iOS using TestFlight.....	2
2. To install Flying Horse app on android using APK	5

To install the Flying Horse app on iOS using TestFlight, follow these steps:

1. **Go to the App Store on your iPhone.**

- Search for "TestFlight".
- Download and install the TestFlight app.

2. **Open the TestFlight Link:(<https://testflight.apple.com/join/f8X9SGcS>)**

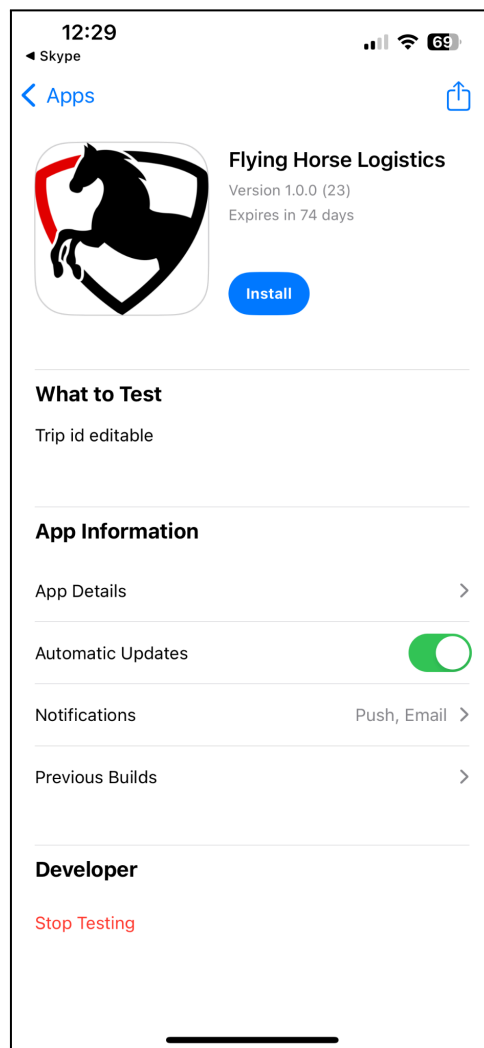

- You should have received a link (via email or message) to join the Flying Horse app beta version.
- Tap on the link from your iPhone to open it in TestFlight.

3. **Join the Beta:**

- Once the TestFlight link opens in the app, tap "Accept" to join the Flying Horse beta version program.

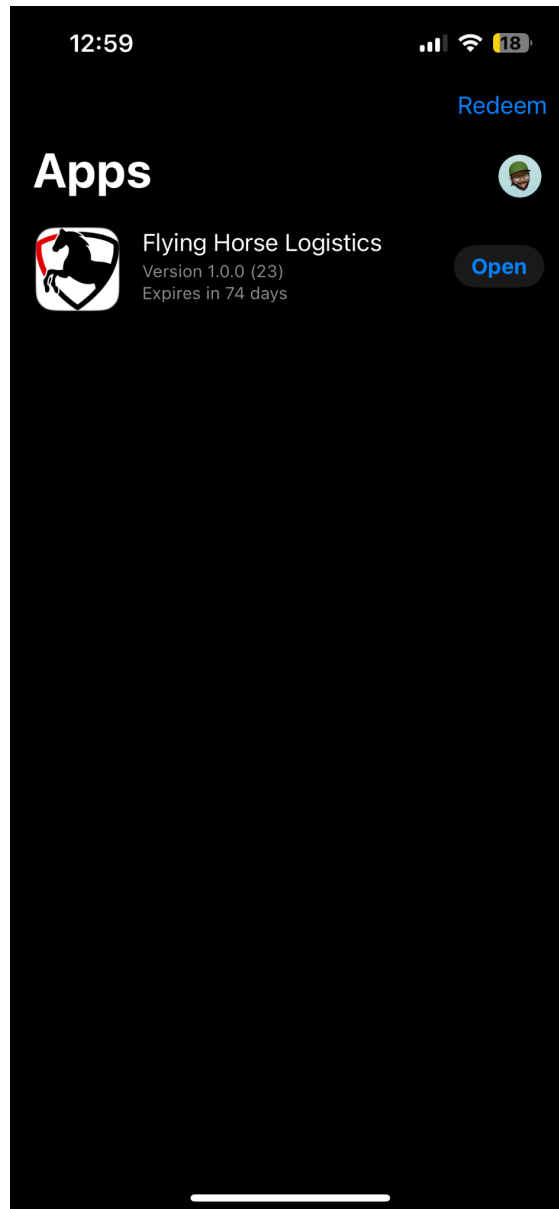

4. **Install the App:**

- After joining, you will see the Flying Horse app in the TestFlight app.
- Tap on the "Install" button next to the app name.

5. Open the App:

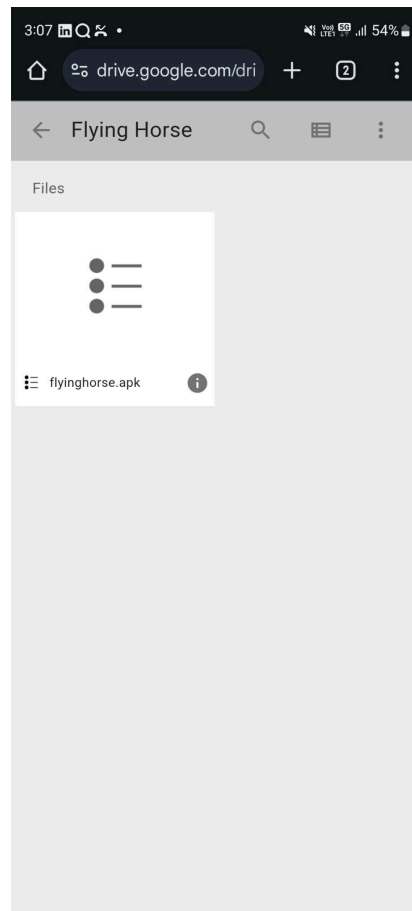

- After installation is complete, open the Flying Horse app from the TestFlight interface or your home screen.

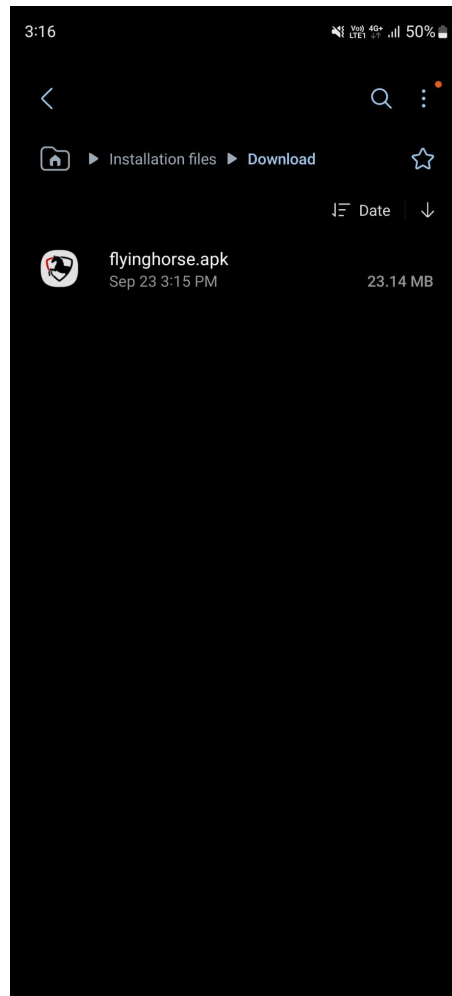

You're now ready to use the **Flying Horse** app! If you receive any updates, they will appear in TestFlight for you to install.

To install the Flying Horse app on android using APK (Android Package File), follow these steps:

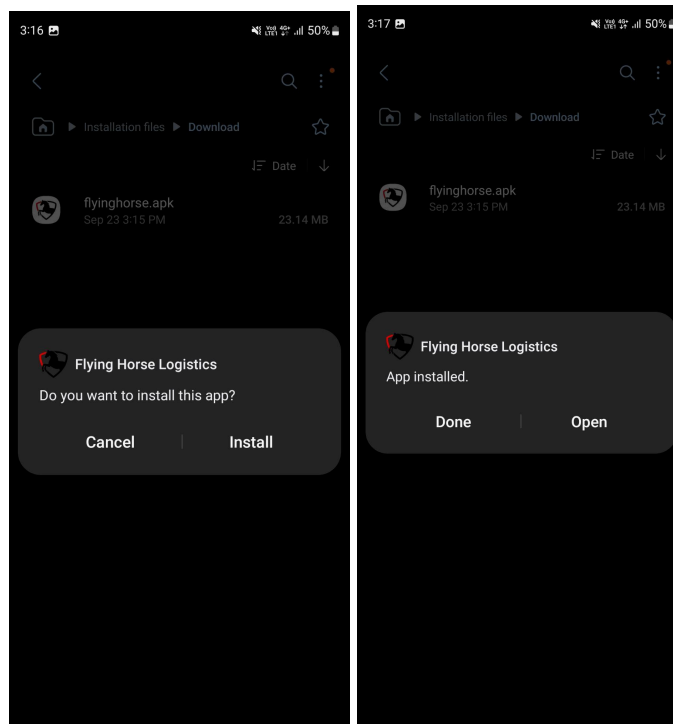

1. Download the APK file on your Android device from google drive (https://drive.google.com/drive/folders/1pZQprPbLYk4mxAomPVRNlrfphHt5p-Uf?usp=drive_link).

2. **Enable Unknown Sources:**
 - Go to Settings > Security.
 - Toggle Install Unknown Apps or Allow Unknown Sources for the browser or file manager you will use to download the APK.
3. Open the file from your download manager or file explorer.

4. Tap **Install** and follow the prompts to complete the installation.

5. Open the app from your home screen.
